PROFESSIONAL SUMMARY

Digital Transformation Management professional with a Master's degree from the University of Bologna and a background in Computer Science. Experienced in IT infrastructure, data analytics, finance, and digital marketing strategy. Skilled in integrating technology with business operations to drive efficiency, optimize performance, and enable data-driven decision-making. Strong in system implementation, KPI architecture, financial monitoring, and operational transformation across cross-functional environments.

CORE COMPETENCIES

Digital Transformation & Strategy

- Digital Transformation Strategy Design & Execution
- Business Process Re-engineering & Operational Optimization
- KPI Architecture & Enterprise Performance Monitoring
- Technology Integration & Digital Maturity Assessment
- Cross-Functional Alignment (IT – Finance – Marketing – Operations)
- Data Governance & Metadata Management (OpenMetadata)

Data Analytics & Business Intelligence

- Python (Pandas, NumPy)
- SQL (PostgreSQL, MySQL)
- Power BI & Tableau Dashboard Development
- Used Tableau to visualize data and develop interactive dashboards for performance monitoring and decision-making
- Advanced Excel Analytics
- A/B Testing & Statistical Analysis
- GMV, Margin, Cost & Profitability Analysis

Finance & Performance Management

- Financial Reporting & Budget Monitoring
- Accrual vs Cash Accounting Principles
- Revenue Recognition & Matching Principle
- Cost Control & Profitability Optimization
- Business Health & Performance KPI Tracking

Digital Marketing & Commercial Analytics

- Marketing Strategy & Omnichannel Planning
- Customer Segmentation & Behavioral Analytics
- Promotion & Campaign Performance Analysis
- CRM & Marketing Automation Analytics
- Route-to-Market (RTM) Performance Monitoring

IT Infrastructure & Technical Foundations

- Windows & macOS Troubleshooting
- Microsoft 365 Administration
- User Access & Asset Management
- Network Fundamentals (LAN/WAN, TCP/IP)
- Cloud Fundamentals (AWS Basics)
- HTML, CSS, JavaScript, PHP

PROFESSIONAL EXPERIENCE

Account Manager & Data Analytics Specialist — Zuu Delivery | Erbil | April 2025 – Present

- Manage vendor partnerships, onboarding, pricing accuracy, and SLA compliance.
- Design dashboards (Tableau/Excel) to monitor operational and financial KPIs.
- Analyze GMV, delivery costs, courier payouts, and margin performance.
- Support marketing campaigns and discount performance analysis.
- Identify operational bottlenecks and implement data-driven optimization strategies.
- Coordinate with technical teams to ensure system efficiency and uptime.

Data Analyst — Agritech Spoke 3 | Italy | Jan 2025 – August 2025 (April to August Remotely)

- Evaluated and implemented Open Metadata for data governance.
- Worked with PostgreSQL and MongoDB for schema validation and metadata ingestion.
- Built interactive Tableau dashboards to visualize datasets and support analytical reporting.
- Supported API integrations and system compatibility testing.
- Improved dataset transparency and technical documentation standards.

Senior IT & Management Officer — Fakher School | Erbil | Oct 2018 – Nov 2022

- Provided first-level IT support to staff and administrative users.
- Installed, configured, and maintained desktops, laptops, and printers.
- Managed user accounts, email setup, password resets, and permissions.
- Supported onboarding/offboarding including device setup and access provisioning.
- Maintained IT asset inventory and lifecycle tracking.
- Troubleshot hardware, software, and network connectivity issues.
- Ensured system backups and antivirus updates.
- Coordinated with external vendors for hardware procurement and maintenance.
- Implemented structured IT documentation to reduce recurring incidents.

EDUCATION

Master of Engineering and Management — Digital Transformation Management
University of Bologna (2023–2025)

Bachelor of Science — Computer Science
Cihan University (2013–2017)

LANGUAGES

- Kurdish — Native
- Arabic — Very Good
- English — Professional Proficiency
- Italian — Elementary

ACHIEVEMENTS & CONFERENCES

- 2016 – Participant, 2nd International Innovation Contest in Engineering, Ishik University.
- 2017 – Participant, 1st National Conference of Cihan University – Erbil on Robotic and Soft Computing Applications.
- 2017 – Participant, 2nd International Scientific Conference – Erbil Communication Engineering and Computer Science (CIC-COCOS17).
- 2017 – Participant, 3rd National Innovation Contest in Engineering, Ishik University.
- 2017 – Participant, 5th Computer Science Department Exhibition for Computer Applications and Internet Services, Cihan University.
- 2017 – Participant, 9th Software and Informatics Engineering Annual Fair (SEDAF 2017).

CERTIFICATIONS & PROFESSIONAL TRAINING

Data Analytics Professional Program — Master School Institute of Technology (MSIT)
Duration: 1 Year

- Comprehensive training in Python, SQL, Data Visualization, and Statistical Analysis.
- Hands-on projects in business intelligence, dashboard development, and data-driven decision-making.
- Applied analytics techniques for real-world business case studies and performance optimization.
- Project Management Foundations
- Agile Project Management
