Procurement, Logistics & Supply Chain (with Tender & Contract Management), July 2021 – June 2025

- Spearheaded the establishment of the Procurement Department, designing integrated frameworks for procurement, supply chain, warehousing, and contract management.
- Authored and implemented the organization's first **Procurement Policy and Supply Cycle**, ensuring transparency, cost control, and regulatory compliance.
- Directed the full procurement lifecycle for goods and services, including vendor sourcing, tender preparation, bid evaluation, contract drafting, negotiation, and delivery coordination.
- Drafted contracts with companies, thoroughly reviewed agreements submitted by vendors, and led negotiations to secure favorable terms and safeguard organizational interests.
- Managed tenders and contracts end-to-end: prepared tender documents, oversaw bidding processes, reviewed and finalized contracts, and ensured compliance with donor and legal requirements.
- Negotiated with local and international vendors to achieve cost savings, mitigate risks, and deliver long-term strategic value.
- Led procurement streams for both **goods** (field sourcing, vendor negotiations, warehouse deliveries) and **services/licensing** (high-value contracts and agreements)
- Introduced inventory and warehousing controls such as stock monitoring, order tracking, and vendor performance assessments to ensure optimal material availability.
- Developed custom tracking tools for procurement, tender, and warehouse operations, reducing stockouts, minimizing delays, and enhancing efficiency.
- Ensured compliance with import/export regulations and managed documentation for cross-border logistics when applicable.
- Oversaw contract execution, monitored supplier performance, and enforced contractual obligations to protect organizational interests.
- Proficient in Odoo: creating and managing Purchase Orders, Goods Receipt PO, A/P Invoices, and inventory transactions.
- Strong experience in **logistics coordination**: transportation, customs clearance, and delivery schedules.
- Skilled in **supplier negotiation and management**, ensuring cost efficiency, quality, and timely delivery.

- Expertise in **reporting and documentation**, generating procurement and logistics reports for management review.
- High attention to detail, accuracy, and compliance with internal policies and approval workflows.
- Ability to work under pressure and manage multiple tasks efficiently
